Summary of Previous Employment

Mideast Shipmanagement

As Master and Safety Superintendent, responsibilities included:

- Assessing onboard security and compliance with the ISPS Code requirements.
- Visiting a variety of crude and chemical tankers, and deep-sea Ro/Ro vessels to undertake training of all deck officer ranks (including Master) and basic safety & security training of crew members.
- Undertaking Safety Audits.
- Training of senior officers ensuring compliance with company operating procedures, as well as company and industry regulations.
- Pre-vetting inspections prior to oil major vetting and CDI Inspections. Involves instructing and assisting with preparation of the vessel, and pre-inspection of records and official documents to ensure full compliance.
- Revision of shipboard operating manuals. In some cases, manuals were rewritten prior to submission to Class Authorities for acceptance under the ISM Code.
- Assisting in training a full time replacement Safety Superintendent.
- Assisting in completion of Ship Security Manuals, prior to presentation to Class.

Large Crude Oil and Product Tankers – Master
