

## Katherine Cools (nee Downes) BSc MSc PhD

**Qualifications / Awards** PhD, Postharvest physiology and biochemistry (Defra HortLink)  
Cranfield University  
MRes, Biological Sciences,  
University of London  
BSc, Natural Sciences with Industrial Placement  
(Rothamsted Research)  
University of Bath  
Tindall Trophy for best PhD in Postharvest.  
Award for best presentation at the Cranfield Postgraduate  
Conference.

**Year of Birth** 1984

**Nationality** British

**Contact** cwa@cwa.uk.com  
<http://www.cwa.international>  
+44 (0) 20 7242 8444

### Current Position at CWA

Consultant

### Specific Expertise and Experience

Katherine Cools' research has focused on new methods to extend postharvest fruit and vegetable storage life and the effect these techniques have on the biochemistry and physiology of the produce. She has worked on several government-funded research projects investigating mechanisms relating to dormancy in non-climacteric produce. In 2013, she took on the additional role of Contract Delivery Officer to support the delivery of contract research for UK and international clients.

As an independent consultant, Katherine has provided specialist knowledge on experimental design, execution and analysis as well as project management of academic and industry led research projects.

## Technical Skills

Design, execution and analysis of storage trials for vegetable crops and soft fruits.

Application of postharvest treatments to enhance or maintain fruit and vegetable quality.

Biochemical analysis using GC and HPLC coupled with ELSD, RID, DAD or QTOF

Experience in molecular biology techniques (i.e. RT-PCR, Q-PCR, microarray, etc)

Experience in proteomic techniques (i.e. SDS-PAGE, immunoprecipitation)

## Summary of Previous Employment

**2015 to Present**                      **Postharvest BioScience Consultant**

**2010 to 2015**                      **Cranfield University, UK**

*Research Fellow*

Projects included:

- Reducing Postharvest Losses and Wastage in UK Potato Storage due to Sprouting (DEFRA, 2010 – 2012)
- Controlling Dormancy and Sprouting in Potato and Onion (BBSRC HaPI, – 2013)
- Industrial contract research.

**2004 to 2005**

**Rothamsted Research, Harpenden, UK**

*Research Assistant Department of Plant Pathogen and Interactions*

## Publications
